BISBEE, ARIZ., SEPT. 10, 1900.

ROOSEVELT, the vice-presidential candidate, met with a cool reception at Chicago last Tuesday from his audience of laboring men. The position is exactly what Hanna prophesied. Roosevelt is not popular with the working class. He is a danger to the cause he represents and will, as is stated by the Examiner, pretty sure to be debarred from doing too much speaking. The working men of this country have great discriminating power, and Roosevelt has not met with their approbation. They have a way of letting a man know when he does not meet with their approval.

DR. SWEET and B. A. Packard left this morning for the Democratic Territorial Convention, which is to be held in Phoenix on Wednesday, the 12th. None of the other delegates from Bisbee found it possible to attend so sent proxies. The latest news indicates that there will be a contesting delegation from Maricopa and possibly from other counties. It promises to be the hottest convention ever held in the territory and in any other party would lead to a small vote on election day. But our democratic friends seem to enjoy a convention row and the united party works just as hard for a nominee winning by one vote as for a candidate nominated by acclamation. Hon. J. F. Wilson two years ago beat Hon. E. E. Ellingwood in convention by one vote after three votes which had resulted in a tie.

It is reported that the Mormons who were located near Compa, Sonora, Mexico, have been compelled to leave their homes by the Mexican government. This act of tyranny on the part of Mexico comes no doubt from the desire to acquire the cultivated lands of the Mormon settlers, their colony being undoubtedly one of the garden spots of Mexico. The Mormons are a thrifty, industrious, peaceful people, and good citizens: Their system of farming, as illustrated by the people of Utah, have revolutionized former methods of cultivating land, and it is now seen that the small ten or twenty acre tract under their treatment is far more productive than the larger farms. Their habits of life are simple, and methodical and they are good neighbors, helpful and thrifty. It seems that the Mormons held their lands under a five years' lease and this expired on the 31st of last August. Probably the people thought that there was no fear of expulsion and that they could depend upon the good faith of the Mexican government. This confidence, if the report is true, has been misplaced and they have been forced to leave the result of their hard work to the Mexicans, who will take possession of their property and find fields and orchards in a state of cultivation that could never have been the case had these people not settled there. It seems to be a case where the interference on the part of the government of this country would not be misplaced, and the Mormons are entitled to the protection of this government. However, it may be that the Americans having taken their lands under a lease cannot insist on a renewal of the term and thus are in the power of the Mexican government. Be this as it may, it

is barbarism to drive away these farmers when no objection appears to have been raised against them, except the expiration of their lease, and when the colony is pronounced to be a garden spot it speaks well for the industry and thrift of the dispossessed Mormons.
